DETAILED ACTION

- 1) Claims 1-30 are presented for examination.

Priority

- 2) The outstanding rejections of priority claims from the previous office action are withdrawn in light of the amendment filed 12/22/04.

Claim Objections

- 3) Claims 7-9 objected to because of the following informalities:

Referring to claims 7-9, the claims contain formulas in which not all of the variables have been defined.

Appropriate correction is required.

Double Patenting

- 4) A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

- 5) Claims 1-30 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-30 of copending Application No. 10/267197, which is now U.S. Pat 6,855,791. This is a double patenting rejection.

IDS

6) The information disclosure statements filed on 12/2/03 and 11/14/03 have not been considered due to the double patenting rejection above. If the double patenting rejection is overcome, an art search will be performed and the IDS's considered.

Remarks

7) Applicant's replies filed on 12/22/04 and 2/11/05 have amended the specification and the application data sheet to state that the current application is a CIP of multiple applications. This removes the outstanding priority-related rejections from examiner's previous office action.

However, no attempt in either amendment has been made to address the double patenting rejection from examiner's previous office action. The current claims are still an exact duplicate of the claims found in co-pending application No. 10/267197, which during the course of this prosecution has now become U.S. Pat 6,855,791.

Conclusion

8) **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2125

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
